

GD Hoffman & Lamson

多级离心鼓风机

by Gardner Denver

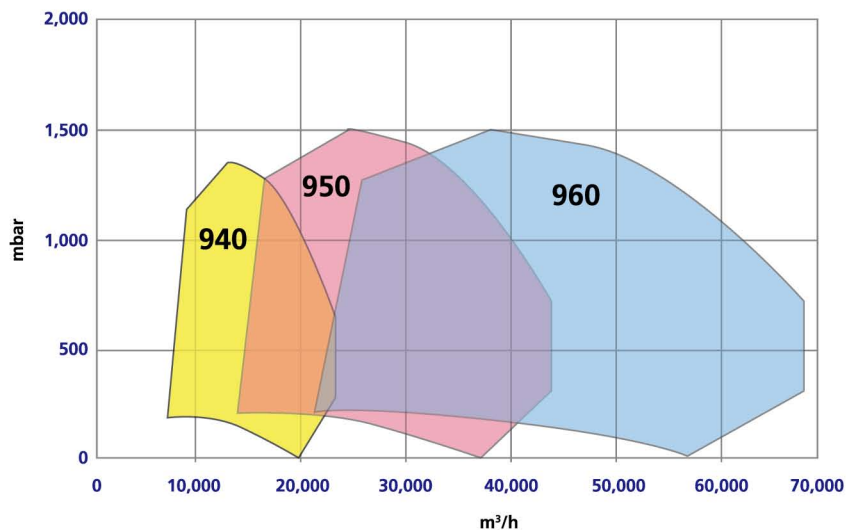

GD Hoffman®和Lamson®是世界领先的多级离心风机品牌。当涉及到需要处理压力恒定、无脉冲流和无油操作的工况时，我们的多级离心鼓风机和抽风机是您理想的解决方案。对于火力发电厂脱硫塔供氧、炭黑行业燃烧炉供风、炼油厂/天然气净化厂硫磺回收系统等应用，全新设计的50Hz风机尤其适合。

50Hz风机特点：

- 全新最优化设计
- 风机电机直联
- 节能，效率达80%
- 可处理较高的压力
- 安静：无需齿轮箱
- 3种风机系列可选
- 风机占地面积小
- 轴承设计寿命10年以上
- 铸铁材质，碳钢轴和铝合金叶轮

GD Hoffman&Lamson鼓风机的特点是可在恒压状态下进行较大范围流量调节，这使他们拥有广泛的应用范围，成为各个行业应用的首选，包括供风，抽吸、材料输送或干燥。

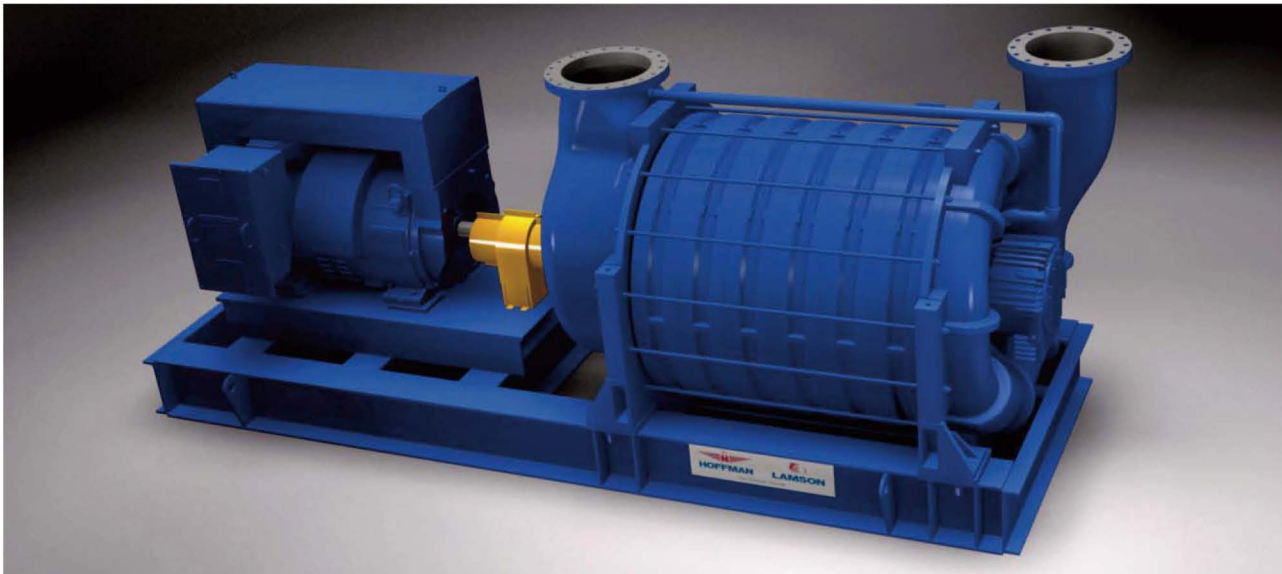

定制化的设计方案：

根据客户指定的要求和独特的应用需求提供多种定制化的设计选择，如特殊涂层、多种材料选择、润滑油或润滑脂润滑、特殊的密封和多种驱动方式选择。

Multistage Centrifugal Blowers

by Gardner Denver

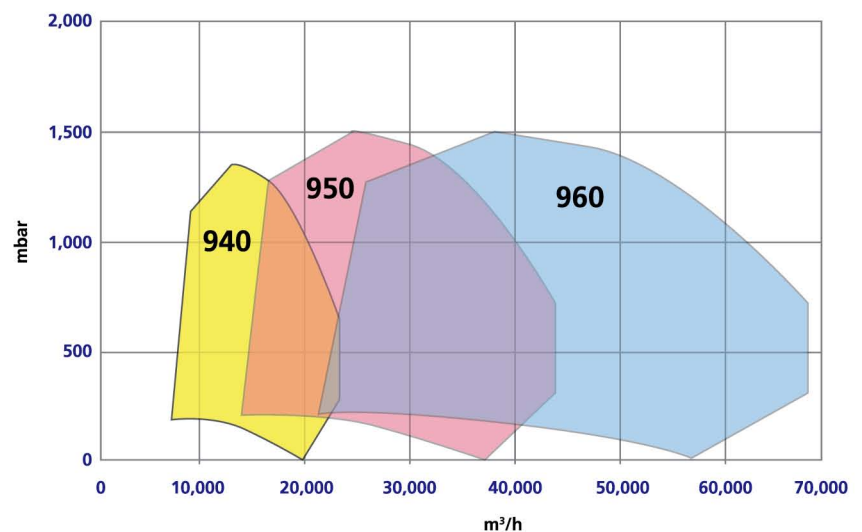

The Hoffman® and Lamson® brands belong to the world's leading manufacturer of multistage centrifugal blowers. Our multistage centrifugal blowers and exhausters are the ideal solution when it comes to processes that require uniform pressure, pulse-free flow and oil-free operation.

Blower Features:

- Designed for optimum performance
- Direct coupled motor
- Energy efficiency to 80%
- Higher pressure capability
- Quiet: no gear box needed
- 3 blower frame sizes
- Small footprint
- Bearing life of 10 years or more
- Constructed of cast iron with a carbon steel shaft and aluminum impellers

Hoffman & Lamson blowers provide a variable flowrate at constant pressure, which makes them the first choice for a large number of applications in a broad range of different industries, including ventilation, extraction, conveying of materials or drying.

Custom-Tailored Design Options:

We offer our customers a large number of additional design options, such as special coatings, alternative materials, oil or grease lubrication, special seals and coupling options. The multistage centrifugal blower defined in this way is then manufactured for the individual application and according to the specified requirements.
